PRINTING.

THE BRITISH COLONIST

A DAILY AND WEEKLY PUBLICATION.

ESTABLISHED IN 1858.

This Journal has the largest and most extended circulation of any newspaper in the Province. It is the only publication in British Columbia that receives

TELEGRAPHIC DISPATCHES.

Its value as a news and advertising medium is therefore very great. Within the past few weeks an entirely

NEW DRESS

has been provided, and the paper having been improved in other respects is the most reliable medium of intelligence on the Northern Coast.

THE DAILY COLONIST

Is delivered by carriers at subscribers' doors at 25 CENTS PER WEEK.

THE WEEKLY COLONIST

Is sent to any part of the Province, Canada, the United States or Great Britain for

THREE DOLLARS A YEAR,

Always in advance. Orders may be sent by mail.

THE JOBBING DEPARTMENT

Has been entirely renovated and now contains three Steam Presses and a complete line of

NEW TYPE

For performing every description of

COMMERCIAL PRINTING

AT VERY LOW RATES.

CARDS,	BOOKS
BILLHEADS,	STOCK
CIRCULARS,	CERTIFICATES
HAND BILLS,	BLANK BOOKS,
POSTERS,	SHIPPING RECEIPTS
PAMPHLETS	CUSTOMS BLANKS
ETC.,	ETC., ETC.,

Executed with neatness and dispatch.

PURSUANT TO A JUDGMENT
OF THE SUPREME COURT OF BRITISH COLumbia, made in the matter of James K. Hockin, deceased, and in the cause, Strouss and Bloomingdale against Leiser. The creditors of James K. Hockin, late of Cassiar, hotel and saloon keeper and warehouseman, who died on or about the 18th day of March, 1881, are, on or before the 30th day of June, 1881, to send by post, prepaid, to Mr. J. P. Walls, of Bastion street, Victoria, the solicitor of the defendant, Simon Leiser, their Christian and surnames, addresses and descriptions, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them; or in default thereof they will be peremptorily excluded from the benefit of the said judgment. Every creditor holding any security is to produce the same before the Registrar of the Supreme Court at Victoria on Thursday, the 7th day of July, 1881, at 11 o'clock in the forenoon, being the time appointed for adjudicating upon the claims.
Dated this first day of April, 1881.

THURSDAY MORNING, APRIL 29TH, 1881.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE GLACIAL PERIOD AND THE AGE OF MAN.

Professor DENTON gave the last of a course of lectures on geology at San Francisco on the 19th inst., selecting for his subject "The Glacial Period and the Age of Man." We venture to submit a short synopsis for the benefit of Victorians who were not so fortunate as to hear the lecture. He began by saying that this is the strangest of all geologic ages. It is marked by beds of sand, gravel, clay and boulders from the size of a man's head to that of a meeting house. Whence came they? Men once supposed that they saw in them evidences of an universal flood, the waters of which, sweeping over the world, heaped up these various beds and transported the boulders. With an increased knowledge it it impossible to accept such a theory of their origin. Drift beds are not found further south than about the latitude of 39 degrees, or the line of Washington, Cincinnati, St. Louis and Kansas City, except in high mountain regions. There are none in Tennessee, Alabama, Louisiana and Texas. As we go north the boulders grow smaller until they cease entirely; it is the same as we go west, and it is not until we go as far south of the equator as we find these beds north of the equator that we discover similar deposits. An universal deluge would make beds as universal, but the fact that they are confined to certain districts disproves the early and common theory of their origin. An universal flood, covering the tops of all the mountains, is a physical impossibility. If all the moisture in our atmosphere and on the surface of our globe were condensed and spread over the earth, it would not cover it three feet deep. But, in fact, these beds were not made by water at all. When we discover the glacial beds we find that the material of which they are composed has never been sorted; we find fine sand and coarse sand, small boulders and large ones piled indiscriminately together. Water never does that; it sorts the material that it lays down. What has done it? The answer is, ice. We can catch the ice doing that very thing now. Various theories to account for the cold necessary to produce the glaciers were stated, the Professor inclining to the theory that there was no access of cold to produce the ice, but that it was circumscribed then as it is now. His suggestion, thrown out for what it was worth, was that it was caused by a change of the magnetic poles, which are now at Wrangel Land and Irkoubs, the coldest points on the northern hemisphere. As you go from the magnetic poles the earth gets warmer. Now, he believed, that during the glacial period the magnetic poles were changed. The center of cold during the glacial time was about 20 degrees south of the present pole on the western coast of Greenland. What caused the change he did not know, but advanced the theory that it might have been a great meteoric fall, which, coming in one vast body, crushed through the center of the earth and caused an outbreak of heat, which left the earth there so much colder for this loss. The discovery of the fossil of the mammoth entire, the great hairy elephant, in the glacial beds shows that some great and sudden access of cold must have occurred to freeze and inclose entire, and to retain in perfect form the mammoth. The discovery of other fossils, the Irish deer, the primitive ox, the two-horned rhinoceros, the cave lion, cave tiger, cave hyena; and, more important still, flint weapons in the caves and the fossils of the race of men who made the weapons, was mentioned as confirmation of the theory. They demonstrate that man, a rude hunter, lived on our planet when the ice period began. But he had promised to speak of other changes of our earth. Our planet is not finished yet. God is just as busy finishing it as any time in its history. Even the old world is being pulled down, the new world being built up. On the tops of your mountains in California your can find the fossils of oysters eighteen inches long. You once had respectable oysters here if you haven't now [laughter]. In Santa Barbara you can see where, at a comparatively recent period, the ocean rolled over what is now the tops of the mountains. The land and water are continually changing places. A man said to me, after a lecture in Wisconsin: "You talk well, but I believe this world was made just as it is." "What!" said I, "Cart ruts and all?" "No," he said, "not cart ruts. We know how they were made." Well, if not the cart ruts why suppose that God made the river ruts in an instant and poured the waters into them? The man who can believe that is not superior to the pious but not very intelligent preacher who told his hearers he could see the wonderful wisdom of God manifested in making all the large rivers run by large cities. [Laughter.] The Niagara fall was once at Queenstown. Seven miles it has cut its way back to where it is now. The fall of the Mississippi, now at Minneapolis, was once at or near the spot where Alton, Ill., now stands, the river having sawed the cliff back 1000 miles to where the Minnehaha fall is now. In the same way the ocean is cutting away the land wherever it rises to the waves perpendicularly. At Cape May, from 1809 to 1811, the ocean cut into the land at the rate of eleven feet a year. The Yorkshire cliffs in England are crumbling and disappearing before the German ocean, and the towns of Auberon, Hartburn and Hyde have gone down in the hungry waves of the encroaching sea. They were formerly shown on the maps of Yorkshire, but now there is no trace of them. At Owthorn the rocks are cut into at the rate of twelve feet every year. Shipden, Wimpwell and Eccles, on the Norfolk and Suffolk cliffs, have disappeared just like the Yorkshire towns. The Isle of Sheppy, composed of London clay, is going very fast, and it is estimated that in thirty years the German ocean will have worn it all away. Yet with all this destruction the land surface of the globe is increasing steadily. The action of the rivers in carrying and depositing sediment on the bottom of the sea is more than supplying the destruction. The Mississippi is filling up the Gulf of Mexico at the rate of thirty-six square miles a year to a depth of forty feet. Twenty thousand locomotives and trains running day and night could not fill in from the Alleghanies as fast as the river is doing it. The Mississippi has taken the job of filling in the Gulf of Mexico, and whether Spain likes it or not Cuba will be annexed to the United States and Uncle Sam will add the Gulf of Mexico to his domains as a big farm. The Amazon, Nile and other great rivers are doing the same kind of work at their deltas. They are making new rocks and filling them with new fossils just as they have been for millions of years. The bottom mud becomes rock and some day mountains will be upheaved in the Gulf of Mexico and men will be quarrying those rocks that are now forming just as we do in the mountains to-day. The Professor gave some amusing conjectures as to the probable perplexity of the scientist of a remotely future period at the fossils he is likely to discover of the present race, and their implements, apparel, etc., what for instance would he think of a hoop skirt, a Dutchman's pipe or the head of the human judged by a fossil stove pipe hat. He closed by predicting a great, glorious and prolonged future for our planet and its highest from of animal life—man.

SPRING FASHIONS.

FOR THE LADIES.

MRS. S. A. HEBERT,
At Mrs. Jamieson's Fancy Goods Store, Fort street,
DEALER IN HUMAN HAIR,
Will remain only a short time. She has all varieties of
SWITCHES, BRAIDS, FRIZZES, CURLS, PUFFS SARACOTA WAVES, BON TONS, ETC.
Ladies having Combings or Cut Hair can now get them made up in first class style. Combings straightened and rooted. Old Switches cleansed, repaired and covered with long hair and colored any shade desired. She will take pleasure in proving to her customers the great improvement in the manufacture of combings into SWITCHES, CURLS, PUFFS, ETC.
She feels sure that all the ladies, after once seeing and comparing the difference in the old and new process, will not hesitate at paying the trifling additional expense of having their hair made up clean and durable so that it may be handled, combed and curled the same as first class hair. A switch worth $5 without rooting, is worth from $7 to $10 when made by the new process Ladies will now see the advantage of carefully saving the hair without twining it around the finger when taken from the brush or comb.
All kinds of hair jewelry braided and mounted to order. Instruction given in hairwork mh27

MUNICIPAL ROAD TAX.

THE ABOVE TAX, COLLECTABLE BY W. K. BULL from those citizens not assessed for Real Estate, is now due and payable at his office, Fort street.

TO BUSINESS MEN!

THE COLONIST has more than double the Circulation of any other Paper published in Victoria, and is the only Publication in the Province that receives Telegraphic Dispatches.

The Cariboo Quartz Company's Mill.

What are the government going to do with this valuable property? Allow it to rust and rot at Yale? or place it in the hands of progressive men to turn to practical account. Since 1878 the mill has "adorned" the townsite of Yale. The government advanced the money ($12,500) to purchase it, and as the company is defunct, and as before its dissolution it failed to fulfill the first stipulation of its agreement with the government, the mill has never (legally) been out of the hands of the latter. They stand, not in the relation of mortgagee, but of owners of the property; and as such have an undoubted right to make such disposition of it as they may deem advisable in the interests of the province. Near Yale an extensive quartz-lode has been discovered, the assays of which average from $10 to $20 to the ton. One of the companies holding on the ledge propose to set up the mill and proceed to crushing the rock; but the government stand in the way. Like the dog in the fable they will neither use the mill themselves nor allow any one else to employ it. They should be advised to place the mill where it will do the most good. As the Cariboo company have ceased to exist the Yale company should be allowed to use it upon the same conditions that it was purchased for the former.

THE METHODIST CHURCH.

Secession of Rev. Mr. Smith.

The annual district meeting of the Methodist Church in British Columbia was convened last evening at the Wesleyan Church, Rev. R. H. Smith, Superintendent of Missions, in the Chair. After the devotional exercises objection was raised to certain doctrinal views which Rev. Mr. Smith had enunciated during the year from his pulpit in this city. Mr. Smith stated that he was unwilling longer to be bound by the close standards of the church and tendered his resignation as a member of the body, which was accepted and he withdrew from the meeting. This action of Mr. Smith will excite a feeling of the liveliest interest in this city and throughtout Canada where he is widely known and greatly respected. A large number of the most influential members and adherents of the church had previously signed a petition asking that Mr. Smith should be continued as pastor at Victoria for a longer term.

Great Opera Troupe Coming.

Arrangements were concluded last evening for a short season of English opera by the Melville Company at Theatre Royal in this city. The company number 35 and their repertoire consists among other operas of "Pinafore," "Billee Taylor," "Pirates of Penzance," "Olivet," "Royal Middy," "Baccasio," "Mme. Favard" and "Bohemian Girl." The prima donna is Emilie Melville, who will be supported by Gracie Plaisted, Lillie Post, Mr. Hatch, Mr. Knight, Max Freeman, Mr. Laffontaine and the rest of the large company. Arrangements as to seats, etc., will be announced in due course. During the season, which will not exceed six performances, the steamers plying between Nanaimo, New Westminster and Yale will issue tickets at special rates to those wishing to attend.

THE NEXT GOVERNOR.—The *Herald* states with a certain of air of positiveness that Senator Cornwall will be the next lieut.-governor of British Columbia. Mr. Cornwall would be acceptable to both sections. Like Senator Macdonald he is an out-and-out British Columbian and has never been mixed up with the disreputable tricks of the James Bay triumvirate.

RACE MEETING.—An influential meeting was held at Mr. Chadwick's last evening and it was decided to hold races on Beacon Hill to celebrate Her Majesty's birthday on the 24th May next. Collectors' names will appear in to-morrow's paper. The meeting adjourned until Monday evening 2nd May, at 8 o'clock, to arrange programme, etc.

BUSY.—Business has taken a big start. Yesterday large quantities of goods were hauled to the wharves for shipment to the Northwest coast and the lower mainland. All the steamboats are running full and the spring trade may be said to have fairly commenced at last.

SAW LOGS.—The steamer Pilot got safely to Cadboro Bay yesterday with a large boom of logs for Sayward's mill from Comox. Weather permitting she will be round to-day with it.

Municipal Council.

WEDNESDAY, April 28th.

Council met at 8 p.m. His Worship the Mayor, and Messrs. Smith, Shakespeare, Kinsman, Vigelius and Wrigglesworth present.

COMMUNICATIONS.

From Messrs. Pemberton and Pearse, declining to contract Government street by altering the line and tendering their resignations as survey commissioners. The communication states that the average width of Government street is 73 feet 6 inches.

Coun. Smith was sorry that the commissioners had resigned as the work was incomplete. He supposed, however, that the council could only accept the resignations.

Coun. Shakespeare moved that the communications be received and laid on the table. Coun. Kinsman seconded.

The Mayor said he was sorry the resignation had been offered, and he was surprised at the nature of a former communication from the same gentlemen on the subject of the survey of Government street, as he (the Mayor) had understood the commissioners to ask for power to alter the line. The act empowering the alteration had passed the House and no objection had been made. The council had been led into this position by the commissioners.

Coun. Shakespeare was of the same opinion.

Laid on table.

From M. Young, Steitz Bros. and Joe Levy complaining of an over charge for water. Referred to water com. and commissioner.

From Coun. Mansell, tendering his resignation as Councillor for Yates Street Ward on account of illness in his family. Received and accepted.

The Mayor said he was sorry to receive the communication. Mr. Mansell was an excellent councillor and his retirement was a public loss.

It was moved that Mr. Bull be appointed returning officer and instructed to proceed with an election to fill the vacancy.

On motion it was resolved to tender Mr. Mansell an address by the Mayor and Councillors.

From H. F. Heisterman & Co. complaining of defective state of gutter in front of town lot 18, Yates street, whereby a nuisance is engendered.

Coun. Vigelius said that the gutter was in a very bad state and required immediate attention or a pestilence would result. Referred to street committee.

From L. G. McQuade requesting the patronage of the Mayor and Council for the coming regatta.

On motion of Coun. Shakespeare the clerk was instructed to return a favorable reply.

Coun. Vigelius—Anything else but compliments?

The Mayor said the communication did not ask for anything else. He believed the impression was that as there would be a larger regatta further on in the season there should not be a division of any funds the Council might have on hand for that purpose.

GAS LIGHTING.

Coun. Shakespeare gave notice of a motion to discontinue the lighting of the public streets from the 1st June to the 1st September this year.

The Mayor—I am very sorry to hear of that retrogressive step.

Coun. Vigelius—Are you interested in the gas works, Mr. Mayor? (Laughter.)

The Mayor—No; I am interested in the good government and efficient lighting of the city. (laughter.)

WOOLEN MILL BONUS.

Coun. Shakespeare said the absence of the city barrister would necessitate the laying over of the bylaw respecting the woolen mill bonus. It would certainly come up at the next meeting.

ILLEGAL GATHERINGS AND BAD BOYS.

Coun. Vigelius called the attention of the council and the superintendent of police to the crowd of men and boys that gather in front of the theatre and obstruct passers in and out. He had seen mere bits of boys—as young as eight years—standing there, and it was a common thing to hear remarks upon ladies and gentlemen who were entering the theatre. He hoped the council would instruct the police to take immediate and stringent action.

Coun. Shakespeare said it was shocking to think of the little children who were suffered to roam about the streets at night using the foulest language. He thought the Council should suppress the evil, which was growing, and he would offer a resolution to the effect that youths under 18 should not be allowed to be in the streets after 10 o'clock at night, and that the superintendent of police be instructed to take in charge all such who could not give a satisfactory account of themselves and confine them in the lock-up. At San Francisco boys were not allowed out of doors after nine o'clock; if found out they were arrested and detained until their parents or guardians came after them.

The Mayor—Is there a convenient place for keeping boys without placing them in the cells?

Supt. O'Connor—Yes. The vicinity of the Theatre the last two nights has been a scene of great uproar. Last night there were upwards of 100 boys congregated there and the police were almost powerless to keep the walk clear. With this resolution in their hands, however, they could suppress the evil instantly.

The resolution was passed unanimously and will be immediately put in force.

Council adjourned.

RESIGNATION OF A COUNCILLOR.—Councillor George Mansell, one of the most efficient and painstaking City Councillors, has resigned with the object of removing to Yale where he will engage in business. The public—especially Mr. Mansell's late constituents—will hear of his retirement with regret, and the Mayor and Council have voted him a complimentary address which is well deserved.

THE Queen's Birthday Regatta Committee will hold a meeting at the H. & L. House this evening. The various committees will begin the work of canvassing for funds to-day. They should meet with a liberal response.

BOYS, LOOKOUT.—The Council passed a resolution affecting you which will be put in force to-night. Keep off the streets or you will be taken to the Police Barracks and locked up.

DEAD.—R. H. Adams, who will be remembered as the pioneer hatter of this city, died a few days ago at Sacramento, California, after a lingering illness.

R. E. CHURCH.—The annual meeting of the congregation will be held at the Sunday Schoolhouse at 8 o'clock this evening.

UNDERWRITERS' SALE.—J. P. Davies & Co. at 11 o'clock to-day will hold an underwriters' sale of damaged goods and other articles.

21 REASONS

FOR SUPPORTING HOME INDUSTRY AS EXEMPLIFIED —AT— KURTZ'S CIGAR MANUFACTORY.

1st. Because only skilled white labor is employed.

2nd. Because only the finest and best tobacco is used.

3rd. Because it circulates and keeps money in the country.

4th. Because it enables the *jobbers* and retailers *to supply their customers* with good cigars.

5th. Because smokers should be as particular as epicures.

6th. Because you can visit the factory and see your cigars made.

7th. Because the ladies do not object to the aroma of Kurtz's Cigars.

8th. Because it does not pay us to make nor you to buy trash.

9th. Because an inferior cigar is an insult to your intelligence and judgment as smokers.

10th. Because smoking is an acquired habit and the taste should be cultivated and improved.

11th. Because all smokers of white labor cigars made here are public benefactors.

12th. Because the taste can be vitiated by smoking vile, cheap cigars. Don't do it.

13th. Because twenty-one families can be supported by the wages received from this local industry.

15th. Because there is room for more if you smoke K. O.

16th. Because boys are learning the trade and acquiring habits of thrift and industry.

17th. Because 21 skilled white men require homes.

18th. Because it requires 21 cottages for them.

19th. Because 21 Chinamen could all be huddled and worked in one small room.

20th. Because tobacco, being the most sensitive and absorbent of plants, must be manipulated in rooms free from taint and noxious vapors—*vide* our factory.

21st. Because all local industries are benefitted by the introduction and encouragement of white labor only and—"don't you forget it." dw

Nanaimo.

Free Press:—Mr. P. B. Cornwall, who has been looking at some coal lands in this district, left by the steamer Isabel yesterday. On Monday afternoon the funeral of the infant son of Mr. and Mrs. Jas. Harvey took place, Rev. W. Clyde, officiating. Shortly afterwards the funeral took place of the infant son of Mr. and Mrs. D. Stevenson, Rev. J. Hall, officiating.... Mr. Carpenter, of the Nanaimo saw mill, will at once erect a steam saw mill close to the Wellington mines, for the purpose of supplying Messrs. Dunsmuir, Diggle & Co. with all the lumber, squared timber, props, etc., required in their entensive collieries. By this means the timber in the immediate vicinity of the mines will be used, and the transportation from Nanaimo avoided. This will effect a considerable saving as Messrs. D., D. & Co. propose making several important additions to their bunkers, so as to increase their facilities for quick loading of the numerous vessels which load at their mines. Besides these, the opening of their new shaft will necessitate the erection of a pithead and incline to the bluff. These and other contemplated improvements about the works and wharves will give constant employment to the new saw mill, which will have a capacity of from 10,000 to 15,000 feet per diem.

Coroner's Inquest.

Coroner Spaulding held an inquest at South Wellington on Tuesday to ascertain the cause of Fred Wild's death, the unfortunate man who was killed by the fall of the cage in the mine on the 16th inst. The evidence of Messrs. P. McLellan, R. Craig, J. Haggart, F. Little, J. Robson, J. Bryden and J. Work was taken.

The jury after some consideration returned the following verdict:

That Frederick Wild came to his death by the parting of the rope at the South Wellington shaft, caused by neglect in not attending properly to the pulley wheel thereby causing the rope to run off the pulley by a large lump of tar being in the pulley. The jury would also recommend that safety catches be used on cages in the different mines; and we also think that the Inspector of Mines should see that the rules of the Mining Act are put in force.

SPRING AND SUMMER CLOTHING.

We have just received Ex Idaho our Large and well selected Stock of Men's, Boys' and Children's Suits, Hats, Caps, &c. Gents' Furnishing Goods in great variety. We would call especial attention to our new stock of Boys' Clothing.

S. REID & CO., FORT ST.

The Drydock.

An injurious report is passing from mouth to mouth in the city. It is to the effect that the contractors have not yet been paid a single dollar for all the work they have performed. Exactly where or how the hitch has occurred is not stated; but there is little room to doubt the correctness of the statement. A strange fatality seems to dog the footsteps of the James Bay Government. Heigho! The thing is becoming monotonous. It is time a change of luck occurred.

MAJOR DOWNIE, the founder of Downieville, Cal., and a pioneer of the province, came up by the last steamer to have a look at the coast of British Columbia on behalf of gentlemen in Nevada county, Cal. We hope the old pioneer will be satisfied with his trip up the coast and remain with us. There are few men who know the resources of British Columbia so well as he does. He was one of the first to explore the coast for a pass for the railroad.

THE CATHEDRAL.—At the annual Easter Vestry of Christ Church on Monday last Mr. R. E. Jackson and Mr. W. C. Ward were elected churchwardens.

JUST RECEIVED.—A large stock of Ladies' Underclothing; also, a full line of Ladies' and Children's Hosiery at YORK & LENZ, Fort street. *

FOR GOOD SOUND APPLES go to the Co-operative Store, Odd Fellows' building, Douglas street. See for yourself. *

New Westminster.

Of the burglar whose arrest was announced yesterday the *Herald* states that the first place where he was known to have entered with burglarious intent was Mr. Keever's dwelling, whence he took a revolver and a watch. The next place he visited was Mr. Mike Sweetman's house, and he there found a pair of boots and a pair of pants, which seemed to suit him. But unfortunately for his further success he was observed and the neighborhood having been aroused Mr. John Wilson was sent after him, and like a true British tar Mr. Wilson soon overhauled him and made him strike his colors although he carried a heavy armament (he had two loaded revolvers and a spare revolver chamber loaded and ready for use when the charges in the pistol were expended). Although the burglar hauled out his two revolvers he somehow or other did not like the determined looks of Mr. Wilson and surrendered unconditionally. Mr. Wilson then disarmed the fellow and walked him off to Chilliwhack, where he was fully committed for trial.

John Wilson of Sumas, on Thursday evening last, went to look for his cattle, his cows seemed to hesitate about coming home, so he went out to learn the reason. After going to the top of the ridge, about a third of a mile from his house, he was joined by his dog, when all at once he saw a large animal that he supposed to be a lion, spring up a tree a short distance from where he was standing. Mr. Wilson was never known to retreat before an enemy, human or otherwise, so he hailed his wife, and she sent him his gun, loaded with a charge of grouse shot, which he presently lodged in the chest of the monster in the tree; the animal sprang to the earth and ran about a hundred yards, when he fell, dead. It proved to be a large specimen of the Puma (an animal of the same species is now stuffed and exhibited at the Mechanics' Institute), measuring 7 feet 9 inches from tip to tip, and weighs about 150 pounds.

Capt. Insley has been appointed to the command of the Kamloops steamer Peerless.

County Court opened at New Westminster yesterday morning, Hon. Mr. Justice Crease presiding.

Mr. Passmore, of Hollygrove farm, the other day killed a steer of tender years which dressed close on a thousand pounds.

The recent wet weather has retarded farming operations in the district; a continued dry spell would be valuable.

The railway terminus wharf at Emory City is about completed, and the railway track is laid thereon.

The contract for building the wharf on the opposite side of the river, at the end of the trunk road, has been awarded to Mr. Jas. Turnbull of this city. Surely it is not too soon to invite tenders for the establishment and maintenance of a steam ferry. The expenditure upon the wharf could not be justified without a proper ferry.

Marine.

The steamer Hylton Castle passed down yesterday afternoon. After landing Pilot Rodgers and Major Downie she passed on to San Francisco.

The barque Henry Buck sailed from Hongkong on 22d March with 400 tons freight and 600 Chinese passengers, consigned to R. C. Janion.

Steamer Maude sailed at 6 a. m. for Comox with freight and passengers.

Ship Yorktown, now lying in Royal Roads, is chartered to load Wellington coal.

Steamship Barnard Castle sails from San Francisco for Departure Bay to-day.

PROTECTION FOR AMUSEMENTS.—A local print thinks the proprietor of the theatre should pay a special policeman to preserve order inside and outside that place of amusement. But the City Government, in imposing a license upon entertainments, undertake to protect the performers and the public who flock to see them; yet they fail to do it. What could possibly be more disgraceful than the scenes of Monday night, when ladies, gentlemen and children were compelled to almost fight their way through a mob of jeering white men and boys, Indians and Chinese in reaching or leaving the building. If the City would consent to forego the license perhaps an arrangement might be made to have the place guarded by special constables; but so long as the city accepts the responsibility the *onus* of furnishing protection rests upon their shoulders, and they are bound to maintain the sidewalk free of obstruction.

THE U. S. GOVERNMENT MEDALS.—Allen Francis, Esq., U. S. Consul in this city, proposes to collect as many tribes of Indians together here as possible on Queen's birthday, on the occasion of presenting the beautiful gold medals recently received for the gallant chief of the Clayoquots and his son. Word will be sent to the West Coast by the steamer Pilot shortly for the tribes there to visit this city on or about the 24th. A large number of Indians are sure to be down from the East Coast as well as the Mainland, so that the occasion will be one of considerable interest. The effect that will be produced upon such a large body of natives cannot but be salutory and will induce them to render efficient aid to vessels in distress wherever they may be found.

THE MANETTA ROBBERY.—Two parties suspected of being connected with the robbery at Mr. Manetta's store on Friday night were taken from the ship Royal Oak yesterday, but as neither of them could be identified they were set at liberty. There were several suspicious circumstances in connection with one of the men apprehended.

METHODIST DISTRICT MEETING.—The first sitting of this gathering took place last evening in the vestry room of the church. With the exception of Revs. Turner of Nicola and Sexsmith of Barkerville, all the stations are fully represented.

DEATH OF A NOTABLE INDIAN WOMAN. Kitty a well known Songish Indian woman resident of Store street for twenty years past died on Tuesday last. The funeral will take place to-day and will be rather an important affair, several carriages having been engaged for the occasion.

FROM NEW WESTMINSTER.—The steamer Enterprise, Capt. Gardiner, arrived yesterday afternoon. She met the Princess Louise at Anderson rock going up.

HOME INDUSTRY.—The attention of our readers this morning is particularly directed to Kurtz's twenty-one reasons for encouraging home industry.

THE steamer Grappler for the Northwest coast this morning will have a large passenger list and a full cargo.

A BRILLIANT aurora borealis was observed last evening.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

WEDNESDAY, April 27.

Jimmy Jones, out on bail, appeared to answer a charge of being drunk and disorderly on the streets on Tuesday evening. Jimmy admitted that he was rather "tight." "I met a friend," said Jimmy, "and treated him, then he treated me and I treated back again, then he treated once more and I did the same, on beer all the time, nothing else. I suppose I got drunk, in fact I am pretty sure I did. It is very likely I talked pretty fast, too. But your honor knows me and I know you. I'm an old resident and you must not think the worse of me for getting tight."

His Honor acknowledged the long acquaintanceship, gave Jimmy some good advice, and fined him five shillings, which he at once paid and went on his way rejoicing.

Through to Yale.

The steamer Western Slope, with 30 passengers and about 100 tons of freight, sailed at 1 p. m. yesterday for Yale. She will reach Yale this afternoon and will return to this port to-morrow afternoon, sailing again for Yale on Saturday at one p. m.

A CONVIVIAL SAILOR.—Yesterday morning just before the Court opened an A. B. seaman, much the worse for liquor, staggered up Bastion street in the direction of the Police Barracks. After giving trouble at one or two places an officer endeavored to give him a little good advice when he sheared of in the direction of Langley street. His conviviality getting the better of him alongside the gaol yard and meeting officer Walsh and Supt. O'Connor they were obliged to escort him back to gaol where he was left to get steadier on his legs before giving an account of himself to the Police Magistrate.

THE LAST OF THE MINSTRELS.—Yesterday afternoon and evening the Hooley, Quinlin & Morton's troupe gave farewell performances, which were largely attended. The inferest felt in this company never flagged and the last house was better than the first. During the morning the company paraded through the principal streets discoursing music that delighted all hearers. *The Colonist* staff gratefully acknowledge the compliment of a serenade. The company will depart for Puget Sound this morning. Like poor Yorrick, we fear we "ne'er shall look upon their like again."

THE Princess Louise left for New Westminster yesterday at 10 a. m. with a general freight and Mr. J. A. R. Homer and five or six other passengers. She will return about noon to-day.

Humorous.

A movable feast—Dining in a hotel car.

Women's sphere—A round of shopping.

A young lady at a ball called her beau an Indian, because he was always on her trail.

"The spring will be backward," predicted Vennor, as he was about to apply a red-hot poker to the cat's nose.

Young lady, examining some bridal veils: "Can you really recommend this one?" Over-zealous shopman: "O yes, Miss! It may be used several times."

"What is the meaning of a backbiter?" asked a gentleman at a Sunday school examination. This was a puzzler. It went down the class until it came to a simple urchin, who said—"Perhaps it's a flea."

"How much is that?" said a mourner in a flower shop, pointing to a wreath of immortelles inscribed "To my mother-in-law." "What you like," replied the florist; "I have had it for four years and no one has ever offered to purchase it."

A story is told of a German shoemaker, who, having made a pair of boots for a gentleman of whose financial integrity he had considerable doubt, made the following reply to him when he called for the articles: "Der poots is not quite done, but der beel ish made ouet."

A burly rowdy who has already served five or six sentences is brought before the police. Just as they are about to begin the examination, "Mr. President," he say, "my lawyer is indisposed. I call for a delay of one week." "But you have been caught in open misdemeanor, your hand in the pocket of the plaintiff. What could your lawyer say for you?" "Precisely, Mr. President; I'm quite curious to know."

Poisoning case on trial at the assizes. The public prosecutor is perorating eloquently. "Ha! guilty wretch, you thought to conceal the d——ning evidence of your crime beneath the earth, but the finger of Providence followed you with its sleepless eye—the grave has spoken!" Prisoner, in an agreeable manner to his counsel: "Then I have been entrapped—deceived. They always said to me, silent as the tomb!"

They were talking of Sir Boyle Roche when a Wicklow magistrate who was present flew off at a tangent. "When I was in danger from a Kerry bull," said he, "I sat down and stared him full in the face." "How did it answer?" queried the breathless bystanders. "Excellent! The Kerry didn't even offer to touch me." "Very remarkable, very curious! How do you account for it?" "Well, sometimes I've thought it was because I sat down on the top branch of a very tall tree," said the magistrate.

Burnett's Cocoaine for Loss of Hair.

CHICAGO, Oct. 11th, 1880.

Three years ago my hair was coming out very fast, and I was nearly bald. I was also troubled with dandruff. I began using BURNETT'S COCOAINE, and my hair immediately stopped coming out, and has constantly been getting thicker. My head is now entirely free from dandruff. My wife has used the COCOAINE with equally as gratifying results.

P. T. PLATT, with MacVeagh & Co.

BURNETT'S EXTRACTS are the purest fruit flavors. 4

THE WHITE HOUSE PIN, good and strong Assorted sizes, 750 for 10c. *

American Mail.

[Per Steamer Isabel.]

A man in Guilford, Conn., who was too poor to indulge in luxuries other than children, was presented by a loving but unreckoning wife with triplets—three boys—and he sought for some family to adopt them. Mr. Clark was rather inclined to take them but his good wife thought one would perhaps be enough. They were talking it over before their little eight year-old daughter, who said: "Why don't you take one of them, ma? or don't they want to break the set?"—*Harper's Drawer.*

There has been a great deal of bad feeling between two Galveston families hence there was much surprise when they intermarried. A friend in speaking to the father of the bride asked if the families had made friends. "Not a bit of it. I hate every bone in my son-in-law's body." "Why did you let him marry your daughter, then?" "To get even with him. I guess you don't know that girl's mother as well as I do.'

A young man in Wisconsin, 26 years of age, all for love, has just married the divorced second wife of his grandfather.

A young man in Audubon county, Mo., recently defended himself in a breach of promise suit on the ground that a contract entered into on Sunday night was not legally binding. He won his case.

The advertising columns of the New York papers are so much used by swindlers to reach persons who may be imposed upon by their schemes that two detectives at police headquarters are employed in looking through these journals daily and investigating suspicious advertisements.

A Mississippi planter wanted to turn his land into a stock farm. His neighbours, who stick to cotton, applied to a court for an injunction to restrain him from sowing grass seed, on the ground that the grass would spread over adjoining plantations and unfit the ground for cotton. The injunction was granted.

Encouraging Thrift.

A new scheme for extending the usefulness of savings banks was suggested a few nights since in the House of Commons. Mr. Russell asked the Postmaster-General whether it was practicable to open branch banks, under control of the Post office, at large factories on days when wages were being paid. More than once efforts have been made to make experiments in this direction, and, so far as these could be successful under the direction of charitable agency, they have been in most instances encouraging as regards results. Mr. Fawcett, in his reply to Mr. Russell, not only expressed sympathy with the proposal, but stated that, as far as the department was able, it would give facilities to any body willing to carry out the scheme. He added that some time ago a firm of brewers employing a large number of persons, applied to the Post-office to let a clerk visit their establishments on pay days and collect deposits—the firm in question paying all expenses that might be thereby incurred by the Post-office, and the results had been, it appears, gratifying. Mr. Fawcett is, therefore, willing to meet similar offers in a sympathetic and appreciative spirit. The wonder is that this idea has not occurred before to the benevolent individuals who preach the gospel of thrift. The trades' unions, who know how to collect money from working people, usually levy their tax on the men when they are full-handed—in other words, just as they emerge from the pay office with their wages untouched. The agents of the unionists know that their chances of getting in their subscriptions are materially lessened if they let the workmen slip past them on pay day without taking the toll eligible for "society" purposes. The system that has proved so efficacious as regards the unions should be equally successful as regards savings banks.—*London Standard.*

Carlyle's Sneers.

A widespread feeling of anger and irritation cannot but be the result of such ungenerous remarks as we find here upon everybody. To him the literary or social fame of another is a positive offence; the genius of a lady draws from him nothing but sneers. Mrs. Carlyle's letters about him and his books are superior to "all the Sands and Eliots and babbling cohue of 'scribbling women' that have strutted over the world in my time." And the remarkable thing is that the greater the genius the more is he or she despised or else hated. This is sad, but true. We will give but two instances out of many. To the lover of English poetry and English humor, the two most interesting figures in the London of 1824 are perhaps the author of "Christabel" and the author of the "Elia" essays. In the best poetry of the one and in the humour of the other there is that quality of "absoluteness" which, in the eyes of the true critic, sets them in a place apart from their contemporaries; and if Coleridge did produce some poetry that was unworthy of him, assuredly the quality of Lamb's humour is always above impeachment. Carlyle's scorn of these two gifted men knows no bounds.—*The Athenæum.*

Diaries for 1881.

A large and full assortment at *The Colonist* Stationery Store, very low. Every business man, mechanic and farmer should purchase at least one. *

DEATH IN THE COFFEE POT.—The public are cautioned against purchasing imported California ground coffee. Its cheapness is its only recommendation. The ingredients are of the vilest description, as anyone using it will discover should he examine the grounds. During the perihelia of the planets people should be careful what they eat and drink. Don't allow your grocer to palm off his trash upon you, because it pays him better to sell it than the good article. Ask for FELL & Co.'s Coffee and take no other. *

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets, Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

NOTICE TO STEAMBOAT OWNERS.—On or about the 1st April I intend to be able to do all coppersmith work and other work connected with steamboats.

H. C. WILSON,
Government Street,
* Near Hook and Ladder House.

TUNING AND REPAIRING.—Mr. A. L. Francis, tuner of pianos, organs and all kinds of musical instruments, is again in Victoria and will be happy to wait upon all who may require his services. Every description of musical instrument repaired. Orders may be left at M. W. Waitt & Co.'s, Government street. *

WE STILL CONTINUE to sell at a great reduction all our Staple and Fancy Dry Goods to make room for new goods now being purchased by our Mr. Brown in Europe. Country orders have our best attention. BROWN & WHITE,
* Importers, Government St.

LUXFORD'S RELIABLE SEEDS.—Sold at Bossi & Co.'s, corner Broad and Yates streets. His WHOLESOME VEGETABLES and RELIABLE SEEDS.—Sold at Shore & Co.'s, corner of Douglas and Pandora streets. *

JUST RECEIVED.—A large assortment of Corsets—a special line in grey, extra value at 75 cents per pair at YORK & LENZ, Fort street. *

A FULL LINE of Domestic Dry Goods, Haberdashery, &c., can be found at YORK & LENZ, Fort street. *

1881 DIARIES FOR 1881 at *The Colonist* Stationery Store, Government street, next the Postoffice building. *

AUCTION SALES.

THIS DAY.
UNDERWRITERS' SALE

J. P. DAVIES & CO., AUCTIONEERS.

Under instructions from

RODERICK FINLAYSON, ESQ., LLOYD'S AGENT,

We will sell at Salesrooms, Wharf street,

— ON —

Thursday, April 28th, 1881,

AT 11 O'CLOCK, A. M.

Ex Spanish barque ODULIA, Captain B. De Aboitiz, from Liverpool.

DAMAGED ON VOYAGE OF IMPORTATION.

Marked and Numbered:

E in diamond V under, Nos. 1 to 125.
44 bxs Price's Belmont Sperm Candles.

H. S., V. under, Nos. 1 to 50.
16 bxs Price's Belmont Candles.

M. R. & T.
1 case 5, 3, 14 Sheet Iron
1 case 5, 2, 17 do
1 bale 824lbs., 11 13-20 reams hardware Paper.

For Account of whom it may Concern,
1 pair 30-in. English Bellows

I hereby certify that I have examined the Treasure's Accounts and found them to be correct and supported by the proper vouchers.
THOS. RUSSELL, Auditor.
Victoria, B. C., 9th March, 1881.

The Directors in making their Annual Report have to inform the Subscribers that during the past year they have succeeded in purchasing a plot of land of 5 acres immediately adjoining the Hospital, for the purpose of erecting an Asylum for Convalescents in connection with the Hospital. The Government have voted a sum of money for the erection of the necessary buildings; but before the works could be commenced the Government required the land to be conveyed to the Crown, which has been done. The coming spring will, it is hoped, see this most necessary adjunct to the institutions of the Province completed.

The Directors regret that the House of Assembly have passed a resolution completely reversing the policy under which the Hospital has been for so many years not unsuccessfully managed; hitherto the Government have been content with having two Directors on the Board, and as a rule these Government Directors have been active and useful members, and have fully answered the purposes for which they were placed on the Board.

The other Directors are the nominees of the Subscribers. The proposed change will be detrimental to the interests of those for whom a hospital is supported. The attention necessary to details takes up a great deal of time, and to suppose that work which is now performed efficiently by eight gentlemen will be equally as well performed by four is supposing too much, and the inevitable result will be a recurrence to the worst evils of the past. The interest which the public now take in the institution will, it is feared, greatly lessen, and the active and friendly assistance given by many will hardly be extended to a purely Government institution.

The Directors have again to express their thanks to Messrs. Dunsmuir and the Vancouver Coal Company for donations of coal and to various charitable societies and individuals who have generously contributed to the support of the institution.

The affairs of the Hospital have been economically managed, as will be seen by the amount of sufferings relieved and the Treasurer's account of the expenditure.

In closing this report the Directors regret that the change introduced by the Government will prevent them again offering their services, and from the applications which have been received for a return of subscriptions and the opinions expressed of the change, they fear that the closing of one of the most useful institutions of the Province will ultimately be the result.

There yet remains to be considered the question of the ownership of the property and the terms on which it was devoted to its present use, and how far the present changes will affect it. On this subject the Directors are not yet in a position to give an opinion.

March, 1881.

To the Board of Directors Royal Hospital:

GENTLEMEN,—I have the honor to submit for your information the following statement of the result of medical treatment of patients under my charge in Royal Hospital during the last year. The number of in-patients, as will be seen below, is less than last year, owing, in a great measure, to so many beds being occupied by incurables. The number of out-patients has greatly increased, as I have had to treat as out-patients many who would have been in-patients had there been vacant beds.

The number of	In-patients admitted	1880.	82
do	Out-patients	do	200
	Total		282

Of whom 10 have died from the following causes:—Lung Disease, 6; Heart Disease, 1; Paralysis, 1; Old Age and Exhaustion, 2. Total 10.

In conclusion I have to express my thanks to my professional brethren, who have always rendered me any assistance I was in need of; and I would wish to draw the attention of the Board of Directors to the admirable manner in which the Superintendent, Mr. Robinson, has conducted the internal affairs of the Hospital, showing all possible kindness and consideration for the patients compatible with the discipline necessary in a public institution.

I have the honor to be, Gentlemen, your obedient servant,

J. B. MATTHEWS.
